

## **Manager, Medical Management**

### **Who we are**

Custom Design Benefits is a third party administrator (TPA) of custom benefit packages for self-funded companies. For nearly 30 years, we have been pioneering a new direction through self-funding, strategic cost containment and benefit plans designed to work for our clients workforce. We place an extraordinary emphasis on providing caring and committed service that cannot be found anywhere else.

### **The Position**

In this role, you will be directing the team of medical management operations and programs/services including pre-certification, case management, and population health. We will look to you to navigate benchmark applications to provide the most comprehensive and up-to-date Evidence Based Solutions to help drive effective care management and utilization management. Most importantly, foster and promote teamwork between the medical management team and non-clinical departments to support interdepartmental collaboration.

### **The Ideal Candidate**

Will possess a current unrestricted RN license in either OH, IN, or KY license. Have a minimum of two years of Case Management or Utilization Management experience, preferably CCM certified. You will also have previous supervisory experience. Prior experience with Population Health Management is strongly preferred.

### **What we offer**

Exceptional benefit package including quarterly performance reviews, annual merit increases, medical, dental, vision, STD/LTD, Life Insurance, and other supplemental programs, a rich PTO package and convenient location. We have a strong culture that values, education, collaboration and engagement.

### **Next steps**
